Demand for electricity in Brazil has increased by almost 200% in 30 years, according to the Ministry of Mines and Energy. The Northeast's solar and wind energy generation has the potential to meet a big chunk of that demand. On April 18-19, 2023, Aranda Eventos will be holding a conference that's already part of Fortaleza's official events calendar: the 3rd Intersolar Summit Brasil Nordeste.

Why should you invest and participate in Intersolar Summit Brasil Nordeste?

- Find business opportunities to offset the water crisis
- Draw on the Northeast's new records in solar generation
- Meet potential clients and partners in a growing market
- An event with Intersolar South America's seal of approval
